### Voter Registration and Child Trafficking Petition

Currently, the State of California prosecutes children as criminals that are forced into prostitution while the Pimp and the "John" are let go (reason: there are no laws set in place against trafficking a child). In the foyer, if you are a CA registered voter, you can sign a petition be placed on the 2012 ballot that will create a law to protect these children and ensure that the real criminals are prosecuted. If you are not registered to vote you can register too!
